

# I Go By Feel

## Buddy Guy

Down in Mississippi, I knew a blind man.

This is what he told me, when I tried to lend a hand.

I go by feel, yes, I go by feel.

The only way I know what's real, I go by feel. People always ask me about the blues I play.

I say it just comes through me, I don't know no other way.

I go by feel, I go by feel.

The only way I know what's real,

Hey, I go by feel. Sometimes it seems like a mystery,

I just close my eyes and it comes to me.

There's somethin' I don't even understand.

I just open my heart and it flows right through my hand. Listen to it. When I'm with a woman, and I wonder if  
there's love,

All the proof I need is right there in her touch.

I go by feel, the only way I know what's real,

Hey, I go by feel.

I go by feel.

People, I go by feel.

The only way I know if it's real,

Hey, I go by feel. Go by feel, go by feel

Yes. (Go by feel, go by feel)

That's what I'm talkin' about.

Oo, I go by feel

Oo, I go by feel

Oo, I go by feel
