Together

Ruben Studdard

Since the day that we met, girl
I ain't never had anyone make me feel this way
And my heart is sure it wants to be with you
Wanna give you the whole world, oh
If you make the promise to me, I'm gonna stay
Without you guiding me, I'm lost and so confused
What will it take to show you, I'll be by your side?
Girl, I got you and I want to give you
What you never had
Girl, everyday I hope to make you part of my life
'Cause you know me and I know you
Girl, your love is where it's at, oh
I'm gonna be the love that's gonna last
And be the one that got your back
Ain't nothing never that bad, that we would be together
And though we both made our mistakes
And some we never wish we made
But we'll be okay if we just stay together, oh
I know he left you stranded
And you paid the price when you messed up your life oh
Girl, I know you're so afraid
But I can't write the wrongs she did
I know you saw the lipstick on my window
And wonderin' how many girl's been to my home
I've done my share of playing games
But for you I given up that life
What will it take to show you I'll be by your side?
Girl, I got you and I want to give you
What you never had
Girl, everyday I hope to make you a part of my life
'Cause you know me and I know you
Girl, your love is where it's at, oh
I'm gonna be the love that's gonna last
And be the one that got your back
Ain't nothing never that bad, that we would be together
And though we both made our mistakes
And some we never wish we made
But we'll be okay if we just stay together
Baby, you're the one I've waited for

Because you gave me what I need and more
Girl, it's clear that we are meant to be together
We should be together, eternally, oh
Girl, I'm gonna be
I'm gonna be the love that's gonna last
And be the one that got your back
Ain't nothing never that bad, that we would be together
And though we both made our mistakes
And some we never wish we made
But we'll be okay if we just stay together
I'm gonna be the love that's gonna last
And be the one that got your back
Ain't nothing never that bad, that we would be together
And though we both made our mistakes
And some we never wish we made
But we'll be okay if we just stay together
