Titanic

Robin Schulz

Try to make it last for days
But none of it worth for days
Said you would love me always
But we haven't kissed for four daysI used to say, yeah, I used to say
We'll make it work, we'll make it work
I wish I found a way
Yeah, I need a way to make it work
I remember you saidIf we go down, we're going down together
If we go down, we're going down together
Titanic
TitanicTry to make you laugh for days
And none of it worked for days
Said you would love me always
But we haven't kissed for four daysI used to say, yeah, I used to say
We'll make it work, we'll make it work
I wish I found a way
Yeah, I need a way to make it work
I remember you saidIf we go down, we're going down together
If we go down, we're going down together
Titanic
TitanicI deserve it, I can't get enough until the endSo if we go down, we're going down together
If we go down, we're going down together
Titanic
If we go down
If we go down, we're going down together
Titanic
