

Edith (One Day You'll Live in a Bunker)

Eureka California

I'm no gunslinger
Ain't been west of Texas
Oh I'm a deep thinker
And I know who DeCartes is And I think therefore I am
And I think like a man
With thoughts like any other one
But I know there's no other one I'm waiting for the sun
But it never comes
And when it burns out
I want to be around I want to make you notice
