Death for Marry

Lessdmv - Death for mar(r)y

The sun starts now to go away
in such a silent place
can feel the storm
destroying our hearts
So slow we walked the darkest way
is such a lonely place
can feel the cold
[like] burning inside

Love
we will hide from the sun
until it's over

The moon is shining on the graves
in such a deadly place
can feel them close
just getting inside

Love (the end it's closer)
we'll hide from the sun
until it's over
Love (the end it's closer)
we'll dance in the darkness
until it's over
Now we're away from the light

You choose me
I choose you
to live in death

Love (the end it's closer)
we'll hide from the sun
until it's over
Love (the end it's closer)
we'll dance in the darkness
until it's over
