

The Snake Man

Reverse Dotty

Maybe it'd be better for you
to be set apart
You're not like your friend here,
Symmetrical Mark
We feel it's in your interest
that you take this drug
You wouldn't wanna pursue
a knife with a nugHe won't have fun but he'd like to find someone and he fell down
All the way down, to the ground,
all the way down, to the ground.

So he picked up his feet, and he walked through the grass, and he looked at the street.
And he'd like to go play, and he'd like to have fun, but he's tired of the Summer, he's tired of the fall.
He's mixing up his marbles and he's smashing up the walls. Smashing up the walls. Seems you're not responding
to the methods we use
Your own chemical bonding
you just try to abuse. He'd like to have some fun,
gonna burn the shed til it's done
Need a light, need a light, alright.
Need a light, need a light, alright. Maybe I know better than you
of how and what I should do
It's not all what you say,
I like it better this way! It's hard bein' the bad son
lightin fires all over the kingdom
Need a light, need a light, alright.
Need a light, need a light, alright.
And he fell down!

All the way down, to the ground, all the way down, to the ground.
So he picked up his feet, and he walked through the grass, and he looked at the street.
'Cause he'd like to go play, and he'd like to have fun, but he's tired of the Summer, he's tired of the fall. He's
mixing up his marbles and he's smashing up the walls.
Smashing up the walls! He likes the rain in the summer time, He likes the sun in the winter time.
