

Take Ecstasy with Me

The Magnetic Fields

You used to slide down the carpeted stairs
Or down the banister
You stuttered like a kaleidoscope
'Cause you knew too many words You used to make ginger bread houses
We used to have taffy pulls
Take ecstasy with me, baby
Take ecstasy with me You had a black snowmobile
We drove out under the northern lights
A vodka bottle gave you those raccoon eyes
We got beat up just for holding hands Take ecstasy with me, baby
Take ecstasy with me
Take ecstasy with me, baby
Take ecstasy with me
