# Modern Love

## RuPaul

As I lay down
What I know
Turning pages
Never told[Chorus]
On the line with a Modern Love
Can't deny what the future was
Take me back to our Modern Love
(Take me back, take me back then)
On the line with a Modern Love
Can't deny what the future was
Take me back to our Modern Love
(Take me back, take me back then)Silver bleeding
Rivers flow
Going undone
I'm letting go[Repeat Chorus]I found myself in situations where I was chasing someone who was chasing someone else, and that someone else actually had their eyes on a completely different person.
And it's... really sad. It's like not wanting to belong to a club that would have you as a member, and... I don't wanna live like that.[Chorus]
On the line with a Modern Love
Can't deny what the future was
Take me back to our Modern Love
(Take me back, take me back then)
On the line with a Modern Love
Can't deny what the future was
Take me back to our Modern Love
(Take me back, take me back then)
