Beautiful Killer

Madonna

Dark eyes on a dangerous face you are a beautiful killer
We pass by the same old place you are a beautiful killer
You don?t have a life, you have blood on your hands
You can sleep at night and I don?t understand
I don?t know much about you are a wanted man
You can call my name and I?ll be around
Maybe I?ll let you shoot me down
Cause you?re a beautiful killer
With a beautiful face
A beautiful killer and you won?t leave a trace
Do you know the reasons why you are a beautiful killer
Hurt yourself but you never die
You are a beautiful killer
I like your silhouette when you stand on the streets
Like a samurai you can handle the heat
Makes me wanna pray for a haunted man
You can call my name and I?ll be a around
Maybe I?ll let you shoot me down
Cause you?re a beautiful killer
With a beautiful face
A beautiful killer and you won?t leave a trace
Can?t really talk with a gun in my mouth

Maybe thats what you been dreaming about
Cause your a beautiful killer with beautiful eyes
A beautiful killer and I love your disguise
(Beautiful killer)
You changed the past
Good guys always finish last
What happens now?
I need to know how the story goes
Are we together
I love you forever?
You can call my name and I?ll be around
Maybe I?ll let you shoot me down
You can call my name and I?ll be a around
Maybe I?ll let you shoot me down
Cause you?re a beautiful killer
With a beautiful face

A beautiful killer and you won?t leave a trace
Can?t really talk with a gun in my mouth
Maybe thats what you been dreaming about
Cause your a beautiful killer with beautiful eyes
A beautiful killer and I love your disguise
You?re a beautiful killer but you?ll never be Alain Delon
