

Royal Purple Peterbilt

Leland Martin

Purple

You see it in at the truck shows
Out there on the open road
Even it the drive way at his house

Johnny keeps it spit shine
Johnny don't eat all the time
He rolls in looking good when he goes out

Why do people laugh at him
Shake there heads when he pulls in the paaarking lot
He's just another trucker man tryin his best to fight right in but fiddle not

Purple

[Chorus]

He drives a royal purple peterbilt and he don't care how people feel abooout it
'Cause the royal purple peterbilt looks so good makes him feel so proud of it
Some drivers call him sissy man but he don't let it get to him he'll shout it
He drives a royal purple peterbilt and he don't care how people feel aboooooout it

Purple

Yea

Now he can have a green one although hes never seen one it looks as good as the one he has right now
Black might look more manly or red like Christmas candy might help his clearance lights and chrome stand out
K maybe that be enough and the jokes about his truck from all his friends
But he'll live with a tease um because he ain't out for please um to waant but him

Purple

[Chorus]

You know theres alot of truck drivers out there on the road
Just like johnny a purple truck is there second home and they'll be the first to tell you son
You better leave ol johnny alone

[Chorus]

Yea

He drives a royal purple peterbilt and he don't care how people feel abooooout it

Purple,Purple,Purple

Heeey johnny were you get that purple peterbilt at
It take a reeeal man to drive a truck like that

Hey don't make fun of that purple truck
Just look at them lime green ones
I wouldn't make fun of that banana look'n yellow truck over there
What about that baby blue with the rust on there
