

# Angels

[Joshua Radin](#)

It's been a long time  
That I've been on my own  
And I can't take no more But these winds are changing  
They blow me through the storm  
Until I see the shore And I'm praying for someone  
To show me I'm not done  
Sometimes I see your face You've got everything I need  
When I'm lost it's only you I seek  
You've got wings to set me free  
When I'm doubt you making me believe  
That angels can fall  
Angels can fall I crossed the ocean  
I walked the desert sand  
I find those hills to climb And I'll keep on searching  
Cause I know you want to land  
Into these arms of mine On this road that I walking  
I hear you talking  
I know I find you soon You've got everything I need  
When I'm lost it's only you I seek  
You've got wings to set me free  
When I'm doubt you making me believe  
That angels can fall  
Angels can fall I've been hurt and I've been left  
On the floor You're the light that lifts me up  
Through that open door You've got everything I need  
When I'm lost it's only you I seek  
You've got wings to set me free  
When I'm doubt you making me believe  
That angels can fall  
Angels can fall
