

Look Out Heart

Wanda Jackson

Well, I just had a conversation with my heart
And it said, "Let's stop to sing before it starts"
For he gets one put inside close that door and run and hide
Thanks ol' heart, here is my advice to you Look out heart, here he comes once again
Look out heart, you know you can't win
Well, he said, "He would be true, didn't say true to who"
Look out heart, here he comes again Well, I've been through this a hundred times before
I don't think I can stand this anymore
Step aside let him by 'cause he's not my kind of guy
Look out heart here he comes again Look out heart, here he comes once again
Look out heart, you know you can't win
Well, he said, "He would be true, didn't say true to who"
Look out heart, here he comes again
