

Waste Some Time

Colt Ford

[Hook - Nic Cowan]

I've been told I need to focus on my life
Work a little harder, do my part, start living right
I ain't got the answers, but I think I seen the light
Since I met you, all I wanna do is
Waste some time [x12]

[Verse 1 - Colt Ford]

Now I'm a three hundred pound red neck rebel
I'm a God-fearing man, who's had a dance with the devil
The Lord I pray my soul to take
If I should never die before I wake
You see, right now I just wanna love and live
And show this country girl what I got to give
My whole heap and helping of some country fun,
Full of four wheel drive, dirt road and shotgun
Ain't nothing better than being out in the woods
With Nic and Nappy Roots and blazin' that good good
Lord I'ma tell Ya we're doin' it just right
Got my Plowboy bunny ridin' by my side
It's just me and my girl and ol' Sick Em Sam
In a flatbed Ford off the Copperhead Dam
Listen to Jamey sing that lonesome song
It's all just right, y'all can keep the wrong.

[Hook - Nic Cowan]

I've been told I need to focus on my life
Work a little harder, do my part, start living right
I ain't got the answers, but I think I seen the light
Since I met you, all I wanna do is
Waste some time

[Verse 2 - Nappy Roots]

With my feet up, lawn chair beat up
I'm on my third six pack, player can you keep up?
Got a right beat in the sticks, wanna see us?
Front yard golf field bottle wanna tee off
Cadillacs here tell Jr going be us
Bulldog fan, every truck throw a G up

Hospital, school every church one street up
Talk more proper when the city folks beat us
Type that go to jail so I learn how to chill
Me and little lady had a bottle in the crib
Friends and the keg in the country boy live
I should write you a manual how a country boy live
Love no love, or bucks no bucks someone hand me a bottle in the jumbo truck
I've never been rich but I really don't want much,
Just a roof and some good liquor in my cup.

[Hook - Nic Cowan]

I've been told I need to focus on my life
Work a little harder, do my part, start living right
I ain't got the answers, but I think I seen the light
Cuz since I met you, all I wanna do is
Waste some time

[Verse 3 - Nappy Roots]

I got five on the wood, twenty on the keg
I been left the hood, yep I did what I said
Momma I'm good 'bout as cool as they come
We cooked a whole hog little chicken where I'm from
I used to be the bomb, now to think I'm fresh
Still rock my same jeans, keep the liquor to myself
Got a little wealth so I gotta thank the Lord,
Couldn't do it by myself, got some help from Colt Ford
Nappy in a Ford, and we travel on a gravel road
He said he knew a spot, where the music and the liquor flow
And of course I'm down like four flats
Drove a country mile, took a left to be exact
Led us smack dab in the middle of the sticks
Now I had seen a lot of things, but nothing like this
A bunch of pretty women, nothin' less than a dime
Colt Ford and Nappy Roots so you know we gonna waste some time

[Hook]

I've been told I need to focus on my life
Work a little harder, do my part, start living right
I ain't got the answers, but I think I seen the light
Cuz since I met you, all I wanna do is
Waste some time [repeated]
