

Judgement Day (Demo)

Eden's Curse

When it all falls down
How Many times did you try and save me?
When my Chains were bound
Tou weren't around
Where the Darkness takes me Look in my eyes I know you're lost
Always with you and your cause
I know you think you've seen the best of me
(you ain't seen nothing yet)
Close your eyes and you will see
The Reason to believe in me
I know you think you're better off without
When it all falls down around ya
Just remember those words I say
Who's the one who'd never fail ya
Who's laughing on judgement day
When it's all been deemed as a failure
Just remember the price you'll pay
Who's the one who stood there for ya
Who's laughing on judgement day
When it all falls down
How many times did you try and break me?
When my chains were bound
You tried to drive but the knowledge failed ya
