

I Can See You With My Eyes Closed

Steve Davis

I can see your laughing eyes; candle-light the night up around you,
I can see the shadow dance around our loving moments that we shared,
I can see the softness blush across of your face, laying there that first time,
And I can feel you tremble, as I take your hand and lead you up the stairs.

Oh I can see you with my eyes closed, I can hold you, hold you in my mind,
Baby I can see you with my eyes closed, who said love is blind?

Music

I can see you standing in my dreams, reaching out to touch me,
I can see the silver glow of moonlight, halo in your hair,
I can hear the silky sound of nightgown falling down around you,
and God would only grant it right to turn back time I turn it back and find you here

Oh I can see you with my eyes closed, I can hold you, hold you in my mind,
Baby I can see you with my eyes closed, who said love is blind?

Who said love is blind?
