

# Force of Change

## Strife

Resistance in a time of mass self-destruction  
Makes the few who walk the straight edge  
A growing force of change  
Committed through gripped by the plague of a nation  
Consumed by intoxication and confined by a crippling greed  
In...my...rage  
I walk the path of true change  
Commitment sworn in the name  
Of those who still walk the straight edge  
Convictions held to my grave
