

# Sweet Shadows

## Daughter Darling

April how dare you  
Bring me a life new  
And now I sit and stare  
Soul bare, soul bare, soul bareHe said to go left  
The cold air stole my breath  
And now I walk alone  
They don't care soul bare, my soul bareThis city's gonna swallow me  
It's hungry, angry, gonna swallow me  
Now the shadows they follow me hollow me  
The sweet shadows they follow meWe all walk so scared  
A smiling face so rare  
They're all frozen alone  
They don't stand soul bare, thier souls bareThe city runs wild  
Around my secret life  
In the dark I will glow, glows my soul, my soul it glowsThis city's gonna follow me  
One day you'll see it'll follow me  
Now the shadows, they're hovering covering  
The sweet shadows are hovering
