

Mud in Your Eye

[Nils Lofgren](#)

You used to leave your scent
On his whiskey soaked collar
You both would paint the town
Drink up his very last dollar And then you loved him for fun
And rode away when it was done
Now hes confused and I know why
Aint that mud in your eye? Aint like rain?
Remember lively little Richard
But his men were painting town
You were in need of attention So he thought hed take you on down
And there you first saw me
And realized you were no longer free
'Cause true love good girls cant deny
It comes and goes like mud in youre eye Sometimes a victim can run
But not when both have been von
And I aint no stranger
I built you up to shoot you down Once you could thrill me
Now Im the jury
And youll be a cinch to convict
Your boys gonna make the great escape While you're laid bare on the ground
This vengeance had to and in crime
I built you up and shoot you down
You know Im not usually that kind But you didnt know he was a brother of mine
But Ill just laugh if you cry
Now aint that mud in your eye
