

Hold Me Still

Forever JONES

You said donâ€™t worry â˜bout your future daughter
Just think about the things that matter
So I wontâ€™t magnify the small the small things anymore
Iâ€™ll only glorify the Father

â˜Cause you, hold me still
When the waves around begin to build
Iâ€™m in your hand
Though sometimes itâ€™s hard to stand
You have my heart and you hold it still

So donâ€™t involve yourself in useless chatter
Just talk about the things that matter
And when you feel the world around you shatter
Just lift your eyes up to the Father

And heâ€™ll, hold you still
When the waves around begin to build
And youâ€™re, in his hand
Though sometimes itâ€™s hard to stand
And give him your heart and heâ€™ll hold you still

Oh, I see the waves
Iâ€™m not afraid
I see the storm
Iâ€™m not shaken
I feel the world quake
My ground is stable, stable

And heâ€™ll hold you still
When the waves around begin to build
And youâ€™re in his hand
Though sometimes its hard to stand
Give him your heart and heâ€™ll hold it still
