I Think You Know

NoMeansNo

circling
haw
dive, bite
clench and jerk
a spray of bright
re, ripped surface
torn flesh
no hot , no cold, no yes, no no
no earth, no k, no you, no Iyou die, you die
every time, you die
you die, you die
you die
you simply dieno hat, no cold, no yes, no no
you know, you know
I know you know
you know I know
you know
I think you knownot coninued
never started
not half, not whole
hearted
never here, where, here, where, here, where, hereyou die...never here, where, here, where, here, where, here
you know...pull out
jetting
sweat, a drag
teeth, a drag
there, again, there, again, there, again, thereyou die...there, again, there, again, there, again, thereyou know..
I think you know
