

# Remedy

Pete Murray

She just likes her coffee  
Hot and black and in the morning sun  
Proceeds to read the paper  
Right on through until the score is done  
Don't you know?

And I will bring you roses  
Big enough to brighten up your day  
And I don't hold your hand now  
But I'm sure I'm well on my way  
Don't you know?

You will be the sun  
When you rise, you start my day  
And you will be the one  
Who controls my every way

Can you be?

Can you be?

My remedy

I will bring you roses  
Big enough to brighten up your day  
And I don't hold your hand now  
But I'm sure I'm well on my way  
Don't you know?

You will be the sun  
When you rise, you start my day  
And you will be the one  
Who controls my every way

Can you be?

Can you be?

My remedy

You will be the sun  
When you rise, you start my day  
And you will be the one  
Who controls my every way

Can you be?

Can you be?

My remedy

Can you be?

Can you be?

My remedy

Oh can you be?  
Oh can you be?  
My remedy
