

# Juliet

## Janove Ottesen

These are my final lines,  
I've lived all my nine lives,  
My nights are over, cannot feel your heart anymore

I lived only through you,  
My scar, my heart, my truth,  
I do not want to die,  
But no more can I love you!

How hard it is to understand  
My wish to die hand in hand?  
This night's like a dream  
You will be the last thing I will see

I hold your hand, close my eyes all I love finally dies  
Drank the poison most foul with you  
But why do you smile?

Don't smile  
Don't you smile  
You're supposed to wither away with me, so, Juliette  
Please don't smile  
I'm paralyzed and you are still alive.

Life is but a long, sad game  
Lifeless souls, avoiding shame  
Two dead swans is all what we need  
To pave the winding memory lane.

No hellos, no bad goodbyes  
Wailing, distant, silent cries  
You can live with my pain,  
It's your own you cannot take?

You played the game and lost,  
I wonder how you can,  
Hold the cards for a dead man

The light and the clarity  
Welcome change for the life in the darkness,

Sea of my sanity

Lost in the vanity  
All I ever wanted, to be lost in you,  
My burden, the hatred

My own reality  
Mirrors and smoke  
The final truth unfolds

Your reality  
Mirrors my hopes,  
Where you will need me

They never find us again once the trail has gone cold  
They never find us again once the trail has gone cold  
I'm a restless soul, I'll make the best ghost  
All things good end into a

Minute of silence!  
I get myself in line  
One minute of silence  
To face my own demise  
One minute of silence  
This is not what I signed for  
One minute of silence  
You double-crossing, filthy whore

I sit with someone in the dark  
I'm so afraid to see it's me again  
You had a change of heart,  
Now we're all getting hurt

Ladies and gentlemen,  
Welcome to my life again  
Walk with me, every curve, every bend  
This promenade that seems to come to an end

You know what you meant to me,  
Emptied the room in your life that I paid for  
When I lost my sanity  
I made a mess I am now here to clean

It is too late to regret anything tonight  
After what has come to light  
You have played me for a fool, for all this time?

The story may rewrite itself after I'm gone  
One more breath, the day will dawn

How hard it is to understand  
My wish to die hand in hand?  
These wounds stay open all night long,  
You are the last thing I will see

I lived only by you,  
My scar, my heart, my truth,  
My sole reason to die, for  
There's no life without you

These are my final lines, I've used all my nine lives,  
My life is over, cannot feel your heart anymore

I lived only by you,  
My scar, my heart, my truth,  
Have no reason to live,  
I can't feel the love anymore

This is, the end  
Why?  
You're closing my eyes

---
