Wedding

The Hep Stars

Wedding today,
all the people running wild to see,
Me go down the isle
with my bride to fall down on my knee

Listen to the preacher praying,
all the words he's saying
make me feel very cold inside

Will you take this girl as wife
make her happy all your life
share her fun and troubles
always by her side

I must keep my head up bold
when I put this ring of gold
on her finger where it will ever be

Wedding today
now's the time when is over
please help to find
half a million four leaf clover
