5 X 5

Ashley Ballard

(All systems operational)
(I'm so alive)
(Everything is 5 x 5)
Got me feeling like there's no gravity
Trying to look at the space between you and me boy
Just trying to get into your world
I need your smile to bring me safely back to earth
Cause when you touch me boy
I'm in another universe
I just wanna stay here till the end of time
No matter where you are
Baby your love is a guiding star
Switch into overdrive cause everything is 5 x 5
Chorus
All systems operational just give the word
I'll give you lovin' unconditional
Don't you know you're my life support
I'm so alive, now everything is 5 x 5
Celebration when we're standing face to face
A calculation as my heart beats into hyperspace
I wanna stay here till the end of time
No matter where we are
Baby you'll shine like the brightest star

Switch into overdrive
Everything is 5 x 5
All systems operational just give the word
I'll give you lovin' unconditional
Don't you know you're my life support
I'm so alive, now everything is 5 x 5
No matter where you are
Baby your love is a guiding star
Switch into overdrive
Everything is 5 x 5
All systems operational just give the word
I'll give you lovin' unconditional
Don't you know you're my life support
I'm so alive, now everything is 5 x 5
All systems operational just give the word

I'll give you lovin' unconditional
Don't you know you're my life support
I'm so alive, now everything is 5 x 5
All systems operational just give the word
I'll give you lovin' unconditional
Don't you know you're my life support
I'm so alive, now everything is 5 x 5
