

5 X 5

Ashley Ballard

(All systems operational)

(I'm so alive)

(Everything is 5 x 5)

Got me feeling like there's no gravity

Trying to look at the space between you and me boy

Just trying to get into your world

I need your smile to bring me safely back to earth

Cause when you touch me boy

I'm in another universe

I just wanna stay here till the end of time

No matter where you are

Baby your love is a guiding star

Switch into overdrive cause everything is 5 x 5

Chorus

All systems operational just give the word

I'll give you lovin' unconditional

Don't you know you're my life support

I'm so alive, now everything is 5 x 5

Celebration when we're standing face to face

A calculation as my heart beats into hyperspace

I wanna stay here till the end of time

No matter where we are

Baby you'll shine like the brightest star

Switch into overdrive

Everything is 5 x 5

All systems operational just give the word

I'll give you lovin' unconditional

Don't you know you're my life support

I'm so alive, now everything is 5 x 5

No matter where you are

Baby your love is a guiding star

Switch into overdrive

Everything is 5 x 5

All systems operational just give the word

I'll give you lovin' unconditional

Don't you know you're my life support

I'm so alive, now everything is 5 x 5

All systems operational just give the word

I'll give you lovin' unconditional
Don't you know you're my life support
I'm so alive, now everything is 5 x 5
All systems operational just give the word
I'll give you lovin' unconditional
Don't you know you're my life support
I'm so alive, now everything is 5 x 5
