

Boogie Woogie Santa

[Deana Carter](#)

I was eight years old one Christmas Eve
I heard a great big bang in our chimney
I snuck down the stairs and peaked around the door
Our living room was a dance floor
Saw Santa boogie woogie Christmas night
That tinsel on our Christmas tree turned into neon lights
He was shaking his suit from side to side
I could not believe my eyes
Santa boogie woogie Christmas night
All at once his fingers started to snap
And that jolly old man put down his bag
He was doing the swim and clapping his hands
He transformed into a moon walking man
Santa boogie woogie Christmas night
(Boogie woogie, Santa boogie woogie)
That tinsel on our Christmas tree turned into neon lights
He was shaking his suit from side to side
I could not believe my eyes
Santa boogie woogie Christmas night
I heard the elves say
"Santa, we've got work to do"
"Chill out, man, Im busting a move"
"What about all the other kids"
"Ho ho, ho ho, youre right, we better go"
I saw Santa boogie woogie Christmas night
That tinsel on our Christmas tree turned into neon lights
He was shaking his suit from side to side
I could not believe my eyes
Santa boogie woogie Christmas
Man, I wish my friends could see this
Santa boogie woogie Christmas night
Ho ho, ho ho, ho
Ho ho, ho ho
Yeah, Rudy
Now were cooking
