

# On & On

## Laura Marie

The moment you took the stage I was yours  
Every syllable on your tongue touched my nerves  
Between what you sang and what I heard you threw me I know every thought inside your head  
You dream like me but play the dream instead  
I'm waking up and going back to bed without it  
On & on, the way you play me  
On & on, I'm blown away I could have a million words inside my mouth  
But I'm tongue tied paralyzed in doubt  
Maybe your lips on mine could ease them out  
On & on, on & on, I'm blown away I'm soaking in the memory  
Drinking up words that pulse and ring  
You're shaking up every single part of me  
On & on, the way you play me  
On & on, I'm blown away  
Hey, I want you alone  
there's nobody else, nobody else  
Hey, I want you alone  
there's nobody else, nobody else
