

# Dance Away

## Smith Westerns

It started in your heart  
It started in my dreams  
You took up all your time  
You took up everything  
Stars in the mirror  
Always look so big  
And every night I wanna do it  
You started in your top  
You never went that way  
You took up all your time  
You took up everyday  
Stars in the mirror  
Always look so big  
And every night I wanna do it  
Upside down, you turn me on  
It's like fire to the flame  
It's like fire to the flame  
And we'll dance the night away  
And we'll dance the night away  
And we'll dance the night away  
And we'll dance the night away  
And everything, and anything  
You just don't have 'em, yeah  
It started in your heart  
It started in your dreams  
You took up all your time  
You took up everything  
Stars in the mirror  
Always look so big  
And every night I wanna do it  
You started in your top  
You never went that way  
You took up all your time  
You took up everyday  
Stars in the mirror  
Always look so big  
And every night I wanna do it  
Upside down, you turn me on  
It's like fire to the flame

It's like fire to the flame  
And we'll dance the night away  
And we'll dance the night away  
And we'll dance the night away  
And we'll dance the night away  
And everything, and anything  
You just don't have 'em yeah
