

Proud Of You

10 Years

Shadows set the mood
Innocence left the room
And all I know to do
Is shed a tear for you, oh, oh, oh, ohPlease, dont be ashamed
Whether you win or lose
I just want you to know
That Im proud of youDont be afraid
When your fight is through
I just need you to know
That Im here with you, with youI cant watch you choose
To pour salt in your wounds
Now all I know to do
Is say a prayer for you, oh, oh, oh, ohPlease, dont be ashamed
Whether you win or lose
I just want you to know
That Im proud of youDont be afraid
When your fight is through
I just need you to know
That Im here with you, oh
