## **Drift On**

## **Butterfly Boucher**

If the waters cool
I might just swim
If the sun shines right I might be here all day
I'd drift away

In a sunken state

I'm busy lappin' it up

I might be here all dayWith the tides and their little secrets

Whispering to me to sleep

Would you take away my weakness?

"drift on

Drift on"If the waters cool

I might just swim

If the sun shines right I might be here all day

I'd drift away

In a sunken state

I'm busy lappin' it up

I might be here all dayWith the ripples and their stories

Cooking up a storm.

Will you carry all my weakness?

"Drift on

Drift on" If the waters cool

I might just swiiiiiiiimmm

I'd drift away in a sunken state

I'm busy lappin' it up

I might be here all day

With the under current lurking

Watching sideways from afar

Could you take away

My weakness

I'm not that strong?

You see I feel so heavy

Without you

And you say

"Drift on

Drift on

Drift on...

...drift on

Mmmm

Stay strong

## Drift on"If the waters cool I might just swiiiimmm
