Zero

Yeah Yeah Yeahs

Shake it like a ladder to the sun Makes me feel like a madman on the run Find me, never, never far gone So get your leather, leather on, on, on, on You're a zero What's your name? No one's gonna ask you Better find out where they want you to go Try and hit the spot, get to know it in the dark Get to know it whether you're crying, crying, crying, oh, oh Can you climb, climb higher? Shake it like a ladder to the sun Makes me feel like a madman on the run No you're never, never far gone So get your leather, leather on, on, on, on You're a zero What's your name? No one's gonna ask you Better find out where they want you to go Try and hit the spot, get to know it in the dark Get to know it whether you're crying, crying, crying, oh, oh Can you climb, climb higher? Was it the cure? Shellshock Was it the cure? Hope not Was it the cure? Shellshock Was it the cure? What's your name? You're a zero What's your name? No one's gonna ask you Better find out where they want you to go Try and hit the spot, get to know it in the dark Get to know it whether you're crying, crying, crying, oh, oh Can you climb, climb higher? Was it the cure? Shellshock Was it the cure? Hope not Was it the cure? Shellshock Was it the cure? Hope notWhat's your name? What's your name?
