The Other Side

Pendulum

Come on down to the other side
Come with us through the gates of hell
We will drag you from where you are to where you belong
Come on down to the other side
Come with us through the gates of hell
We will drag you from where you are to where you belong
There's nothing to fear, your saviors are here
The ship is coming down, the ship is coming down
The ship is coming down, coming down, coming down
You, you are so precious a diamond in rough
And when you try to escape I will be holding on
Holding on, holding on, holding on
But I can't sleep until this is done
They're in my head, they're in my soul
Come on down to the other side
Come with us through the gates of hell
We will drag you from where you are to where you belong
Come on down to the other side
Come with us through the gates of hell
We will drag you from where you are to where you belong

We are in your spirit, we're everywhere you turn
From the cover to the cover, the cover to the cover
Your lover, in your brother, in your mother, the other's
You, you are so precious but now you've gone away
And I am falling apart under the waves
Waves, waves, waves
But I can't sleep until this is done
They're in my head, they're in my soul
Through the gates of hell, we know you
The ship is coming down, the ship is coming down
Coming down, coming down, coming down
Coming down, coming down, coming down, coming down
Come on down to the other side
Come with us through the gates of hell
We will drag you from where you are to where you belong
Come on down to the other side
Come with us through the gates of hell
We will drag you from where you are to where you belong

Come on down, come on, come on, come on, come on
