Diamond Love

Dave Rodgers

Hey , Girl wassup
Looking like you need a little pick me up,
Come with me I'll introduce you to the brighter side of love,
No more cloudy days, all the rain washed away
Everything will change, but I can love you in the darkAll night, or I can love you in the sunlight
Baby take my hand we can go anywhere
We won't be afraid tonight, tonightBaby if you let me be your diamond love
I will blind you til you say you've had enough
Baby i can make you shine
Been waiting to make you mine
We can go light up the sky tonight
Baby if you let me be your diamond love, girl
Your diamond loveHey, Girl wassup
How would you like to be one , one of my kind
Come over to the other side
Let me take you for a ride
I'll kiss your neck and girl you won't be the same
Baby everything will change, but I'll still love you in the darkAll night, or i can love you in the sunlight
Baby take my hand we can go anywhere
We won't be afraid tonight, tonightBaby if you let me be your diamond love,woaahh
I will blind you til you say you've had enough
Baby I can make you shine
Been waiting to make you mine
We can go light up the sky tonight
Baby if you let me be your diamond love, girl
Your diamond loveIt's all up to you
Lead you to the moon
Pass the stars, girl lets fly away
I'm waiting on you
What I gotta do to be your diamond love?Baby if you let me be your diamond love
(Would you, would you? Would you, would you?)
I will blind you til you say you've had enough
(Baby I can make you shine!)
Baby I can make you shine
Been waiting to make you mine
We can go light up the sky tonight
Baby if you let me be your diamond love, girl
Your diamond loveAye!!! (x8)
