I Like the Way

Bodyrockers

There's so many things I like about you
I just don't know where to begin, okay, wellI like the way you look at me with those beautiful eyes
I like the way you act all surprised
I like the way you sing along
I like the way you always get it wrongI like the way you clap your hands
I like the way you love to dance
I like the way you put your hands up in the air
I like the way you shake your hairI like the way you like to touch
I like the way you stare so muchBut most of all, yeah, most of all
I like the way you moveI like the way you put your hands up in the air
I like the way you shake your hair
I like the way you like to touch
I like the way you stare so muchBut most of all, yeah, most of all
I like the way you moveI like the way you move
I like the way you move
