I Like the Way

Bodyrockers

There's so many things I like about you

I just don't know where to begin, okay, wellI like the way you look at me with those beautiful eyes

I like the way you act all surprised

I like the way you sing along

I like the way you always get it wrongI like the way you clap your hands

I like the way you love to dance

I like the way you put your hands up in the air

I like the way you shake your hairI like the way you like to touch

I like the way you stare so muchBut most of all, yeah, most of all

I like the way you moveI like the way you put your hands up in the air

I like the way you shake your hair

I like the way you like to touch

I like the way you stare so muchBut most of all, yeah, most of all

I like the way you moveI like the way you move
