

# Obsidian Night

**Jex Thoth**

O' sister, take my sin  
There are serpents in my skin  
I tell you, it's no lie  
Run to the afterlife...Those frozen crystal skies  
A pyramide of life  
Become Obsidian Night  
Karmic stains on the imaginal mindsO' sister, it's my fate  
To live my life in pain...  
And never be reborn  
Never regain in formA spiritual life  
Becomes Obsidian Night  
So let's just say goodbye -  
No more undead dreams in a subconscious eye
