Forever Endeavor

Taproot

It seems it's been so long, 'cause it's been way too long
Since we've shared a warm embrace and since I've seen you smile
The wind of misery appears and takes away from all we have
The cycle just goes on and on and on and on'Cause only time will tell if we're meant to be
You and I won't know if it's our destiny forever endeavor
Forever endeavorI am alone again 'cause I am alone again
The choice we have to face is whether to move on
The urge to right our wrongs but no fix is long
The wind of misery appears the cycle just goes onOnly time will tell if we're meant to be
You and I won't know if it's our destiny forever endeavor
Forever endeavor, forever endeavor, forever endeavor, breakOnly time will tell if we're meant to be
You and I won't know if it's our destiny forever endeavorOnly time will tell if we're meant to be
You and I won't know if it's our destiny forever endeavor
Forever endeavor, forever endeavor, forever endeavor
