

# Make It Go Away

## The Dreaming

I trace the shape of your mouth with my fingertips  
I still burn for your kisses  
Ressurect the moment that we've never had  
Then close my eyes and try to

Make it go away

I must erase every trace of this memory  
Take back those words that haunt me  
Try to save what is left of my sanity  
Unleash theses ghosts that haunt me

Make it go away

Can't take back these words I've spoken  
Can't take back these lies (make it go away)  
Can't take back the promise broken  
Can't take back these tears we've cried

How many nights have I stared at this photograph  
Until my eyes betrayed me  
How may nights have I prayed for somebody to  
Rip out this heart that's breaking

Make it go away

Can't take back these words I've spoken  
Can't take back these lies (make it go away)  
Can't take back this promise broken  
Can't take back these tears we've cried

Make it go away  
Just fucking make it go away  
Make it go away

Can't take back these words I've spoken  
Can't take back these lies (make it go away)  
Can't take back the promise broken  
Can't take back these tears we've cried
