

Forerunner Foray

Shabazz Palaces

Now you could feel all the tension
Building up at the convention
As the hustlers began to arrive
Must have been 9000 or more
That came through the door
The time was 11: 55
There were pickpockets and dope peddlers, murderers and thieves
Card shark gamblers with aces up their sleeves
Bank robbers, burglars, boosters and pimps
One more blaster for the streets(hey)
I was born on the understanding
Stars slung 'cross the heavens
Some might call uneven
My kind call 'em leanin'
Bitch boy, pistol aimin'
Black star, minds are schemin'
Fulfill all our dreamin'
That's what's up this evenin'
Extra vacant bangers
Brim broke chain swingers
Space cake horse race AK that nigga lame
God smile on me favours, baby caught the vapors
Magic golden purp running like the filthy lakers
Self saviour cream chaser in my ride later
Crack baker super real just like '88 was
'92 and '92, in '92 we grinded thru
I was there, you're a square
These do not compare
If I'm there in the square you should come and stare
Bring her too, learn a thing or two how a king'll do
Off the cuff, fill my coffers up, pop my collar up
Gunheat to these gunbeats she gone stir it up
Black stallions pull my chariot
My heart's broken (swag)
Time travel fast and far to the last ocean
Punk potion, pimp pirate pushin' plush prose in
Curtains closin'
You ain't knowin' he was just posin'
Map clonin' that's a no-no where I be rollin'
The leads hot how I pop, see now that's a cold one
Constellation roll-call it's a style sport
Winners take all, holler black for the straps report
We respect Mohamed, peace be upon him

Connecting with the pirates

I know where to find it These niggas shot Cyrus I'm the icest, wait up on the bottom on some fly shit

Priceless, but down there at the top I can't find shit

Every time I rock it's a tongue-kiss

E.H. Starling, forerunners and a punk fist

Shout out to the B C C C constellation OC, can't stop stop KD

Triple M ra ra C and KB

Bro bro solo though Shaheed stay free Yung beat find heat where the cake be
