Parachute

AM!R

What's that noise , what's that sound
That's my love dying for you

Who is that screaming out,
That's my love

Ohhh
I'm at the end of my rope
Just hanging here, and I feel sick

My heart is feeling heavy with hope
I might be losing my grip

Over,
No this can't be done
Rewind before the credits run

Closer
On the tip of my tongue
Fell in love with no parachute on

Over,
No this can't be done
Rewind before the credits run

Closer ,
As the waterfall comes
Fell in love with no parachute on

What's that noise , what's that sound
That's my love dying for you

Who is that screaming out,
That's my love

We push and we pull like a sumo
Skinny dipped and kissed on the pool floor
Too busy fucking didn't keep score

Now the only thing we bang are closed doors

Banging closed doors

We're on a bad trip
but I'll never admit
That I'm losing my grip

Over,
No this can't be done
Rewind before the credits run

Closer
On the tip of my tongue
Fell in love with no parachute on

Over,
No this can't be done
Rewind before the credits run

Closer ,
As the waterfall comes
Fell in love with no parachute on

What's that noise , what's that sound
That's my love dying for you

Who is that screaming out,
That's my love

Mumbling to my self
It can end like this, end like this
It can end like this, end like this

Tell me ain't gonna end like this

Over,
No this can't be done
Rewind before the credits run

Closer
On the tip of my tongue
Fell in love with no parachute on

Over,
No this can't be done

Rewind before the credits run

Closer ,
As the waterfall comes
Fell in love with no parachute on
