

All She Cares About Is Mariachi

The Magnetic Fields

You want to light your flame in her hibachi
Well brother, I can tell you in advance
That all she cares about is mariachi
And all she ever wants to do is dance
Go there and wear your hair like Liberace
Go wear some freakish fragrance fresh from France

Friend, all she cares about is mariachi
And all she ever wants to do is dance
So go ahead and hire Saachi & Saachi
To advertise the sausage in your pants
But all she cares about is mariachi
And all she ever wants to do is dance
