You Can Do That

Lisa Stansfield

Don't worry baby
It's time to tell yourself
Nothing's quite as bad as it seems
And it's time to help yourself
To all the things you've only dreamed aboutYou don't know what's up
Oh let me just show you baby
Everything feels so low down
You know where to go
Pick yourself right up
Lookin' right inside
You can make it better baby, you can make it betterYou've got to live your life
You can do that
You've got to make it right
You can do that
You got to let some light in your lifeDon't be afraid to cry
You can do that
Don't be afraid to take a look inside
You can do that
It's just a state of mind
It's all rightThere's no more turning back
And straight ahead there's so much more
Don't dwell on what you lack
Look at what you have and open up that doorYou don't know what's up
Ooh let me just show you baby
Everything feels so low down
You know where to go
Pick yourself right up
You can make it better baby, you can make it betterYou've got to live your life
You can do that
You've got to make it right
You can do that
You got to let some light in your life
Baby, babyDon't be afraid to cry
You can do that
Don't be afraid to take a look inside
You can do that
It's just a state of mind
It's all rightYou can make it better, you can make it better
You can make it better, you can do that

You can make it better, you can make it better
You can make it better, you can do thatYou don't know what's up
Oh let me just show you baby
Everything feels so low down
You know where to go
Pick yourself right up
Lookin' right insideYou can make it better baby, you can make it betterDon't be afraid to cry
You can do that
Don't be afraid to take a look inside
You can do that
It's just a state of mind
It's all rightYou can make it better, you can make it better
You can make it better, you can do that
You can make it better, you can make it better
Ooh its alright
You can make it better, you can do thatYou've got to live your life
You can do that
You've got to make it right
You can do that
Your got to let some light in your life
