

# I'll Wait

## Taylor Dayne

Little more time, just a little more  
Just a little more time, just a little more  
Just a little more time, just a little more  
Just a little more time, babyLittle more time, little more time, just a little  
Little more time, little more time, just a little  
Little more time, little more time, just a little  
Little more time, little more time, just a little more timeI'll wait just a little more time  
I'll wait just a little more timeI'll wait by the window, I'll wait by the door  
To make sure you don't come home after dark  
Now, I'll wait by the phone, I'll make sure I'm at home  
I'll be there when you're needin' you know whatI can tell you by the things you do  
You don't know that I've been watching you  
And I don't understand your games or crazy plans  
I'm here for you baby, stop playin' with my mindWell, I know what I feel inside  
I trust enough in what my heart tells me  
Haven't I been good, the way I should?  
Just act like a man and stay here and stand by my sideI'll wait just a little more time, just a little more time  
To move in a new direction  
I'll wait just a little more time  
Till you make up your mindWhy now are you feelin' so scared and unwilling?  
To be there when someone's there for you  
Why time has to be so unkind for no reason?  
But love has no measure, this is trueWell, I know what I feel inside  
I trust enough in what my heart tells me  
Haven't I been good, the way I should?  
I'm willing, I'm able, I need you to give me a signI'll wait just a little more time, just a little more time  
To move in a new direction  
I'll wait just a little more time  
Till you make up your mindLittle more time, just a little more  
Just a little more time, just a little more  
Just a little more time, just a little more  
Just a little more time, babyWell, I know what I feel inside  
I trust enough in what my heart tells me  
Haven't I been good, the way I should?  
Just act like a man and stay here and stand by my sideI'll wait just a little more time, just a little more time  
To move in a new direction  
I'll wait just a little more time  
Till you make up your mind
