Don't Tell Nobody (feat. Obrian)

Zel Harley

[Chorus: Zel Harley] x2

If i let you touch me tonight
We ain't gotta tell nobody, please don't tell nobody
If i let you ride it tonight
Baby we ain't gotta tell nobody, please don't tell nobody
If i let you taste it tonight
We ain't gotta tell nobody, please don't tell nobody
And if we get to f*cking tonight
Baby we ain't gotta tell nobody, please don't tell nobody

[Verse 1: Obrian]

Imma lay you down right here
And i'm gonna touch your body
I wanna see you get naughty
I'm just tryna make this clear
That i'm gonna own that body, so please don't tell nobody
Shawty throw them legs back
Turn around and put that ass up
It's gone be a private party
You won't get no sleep tonight cause i won't stop till you get right
We ain't gone tell nobody cause its only between me and mine

[Chorus: Zel Harley]

If i let you touch me tonight
We ain't gotta tell nobody, please don't tell nobody
If i let you ride it tonight
Baby we ain't gotta tell nobody, please don't tell nobody
If i let you taste it tonight
We ain't gotta tell nobody, please don't tell nobody
And if we get to f*cking tonight
Baby we ain't gotta tell nobody, please don't tell nobody

[Verse 2: Obrian]

Come on, baby turn the lights off lets get naked
And just climb on top of me
I love it when you ride it

I need to be inside it
It's just me and you
So show me what's right
You make ugly faces when i put it in deep
(It makes you scream)
Scream my name and i'll make sure you hit your peak
(hit the peak)
So when we get to fucking tonight
I'm gone own your body so please don't tell nobody

[Chorus: Zel Harley]

If i let you touch me tonight
We ain't gotta tell nobody, please don't tell nobody
If i let you ride it tonight
Baby we ain't gotta tell nobody, please don't tell nobody
If i let you taste it tonight
We ain't gotta tell nobody, please don't tell nobody
And if we get to f*cking tonight
Baby we ain't gotta tell nobody, please don't tell nobody
(We ain't gotta tell nobody baby)

We aint gotta tell nobody,please don't tell nobody
x3
