Conspiracy Theory

Nick Jonas & The Administration

Conspiracy theory
Better keep it down

'Cause the walls are thin

And the word is out nowLock your lip

Don't you make sound

'Cause the walls are thin

And the word is out nowBetter that you didn't know

Better that they didn't show, that's right

Probably need to live in fear

Knowing that the threats are real this timeConspiracy theory

Gonna make you shake

Don't hit the brake

No time to waste nowLike it or leave it

Better hit the road

'Cause the one we know

Is gonna fade away nowBetter that you didn't know

Better that they didn't show, that's right

Probably need to live in fear

Knowing that the threats are real this timeConspiracy theory

Conspiracy theory Conspiracy theory

Better keep it down

'Cause the walls are thin

And the word is out nowLock your lips

Don't you make a sound

'Cause the walls are thin

And the word is out nowBetter that you didn't know

Better that they didn't show

Probably need to live in fear

Knowing that the threats are real this time
