Devils in the Mist

Overkill

Pray for the days of glory
Long gone the master plan
Gone is the pride of independence
Sacrificed like a lambHere is the same old story
Here where the honor ran
There was a price for the consolation
Walking in hand in handThy kingdom come, he came to fear it
He's on the Judas list
Thy will be done and fondled spirit
Sees devils in the mistGive a new resolution
Give what all I can
Give me some more of what I can take
Feed me from your garbage canLet me have the absolution
Let me stand like a man
Let me walk tall with the godforsaken
Walking out hand in handThy kingdom come, he came to fear it
He's on the Judas list
Thy will be done and fondled spirit
Sees devils in the mistOne more godforsaken
Tend to make him pay
A kiss from Judas and temptation
Sends him on his wayPasses on redemption
Tend to make him right
Another kiss of Judas lands
Before he sees daylight into his nightHotOne more godforsaken
Tend to make him pray
A kiss from Judas and temptation
As I heard him prayThy kingdom come, he came to fear it
He's on the Jesus list
Thy will be done and ruined spirit
Sees devils in the mistThy will be done
Thy will be done
Thy will be done
Thy will be done
