

Fakin It (feat. Ofelia K)

Kaskade & Felix Cartal

It's funny how everybody says you gotta figure it out

Pull the veil

Make the wild side a secret you'll never tell

Gotta curse that I can't kick

Broken pieces I can't fix

Oh I know now

Cause I know nothing now

But maybe it's ok to be lost in your backyard

Ok to wonder what's in the dark

OK to be lost in your backyard

Are we all just fakin' it?

Maybe it's ok to be lost in your backyard

Ok to wonder what's in the dark

Lonely, little terrified hearts

Are we all just fakin' it?

Are we all just fakin, fakin it?

Diamonds and gold

Cover me like skin over skeleton bones

I chase the high

Let the strangers serve me like a lullaby

Oh the desert mirage

Moving further out of reach

Oh I know now

Cause I know nothing now

But maybe it's ok to be lost in your backyard

Ok to wonder what's in the dark

OK to be lost in your backyard

Are we all just fakin' it?

Maybe it's ok to be lost in your backyard

Ok to wonder what's in the dark

Lonely, little terrified hearts

Are we all just fakin' it?

Are we all just fakin, fakin it?
