So I See

Lene Marlin

So I see it, it's right there in front of me
What's the matter, oh, you cannot see
Feeling like I did when you blindfolded me
So I hear it, for a brief moment there I thought I knew
All these things they were far, far from true
But I guess, you cannot hide from the truth
So, I see right through you
And I know what you've been up to
Oh, I see right through you
And I know the things you do
So I see it, it's right there in front of me
Oh, I'm sorry, you did not wanna see
Acting like I did when you betrayed me
So I hear it, they didn't have to scream it in my head
They just could have whispered it instead
'Cause I, I am already over it now
So, I see right through you
And I know what you've been up to

Oh, I see right through you
And I know the things you do
So I hear it, they didn't have to scream it in my head
They just could have whispered it instead
'Cause I, I am already over it now
So, I see right through you
And I know what you've been up to
Oh, I see right through you
And I know the things you do
So, I see right through you
And I know what you've been up to
Oh, I see right through you
And I know the things you do
So, I see right through you
And I know what, what you've been up to
Oh, I see right through you
And I know the things you do
