

# Kingdom Falls

## Nate James

Ohoooo oooSat on the floor mmmWhod have thought that wed be,  
Split by two roads in our destiny  
That, that is barren to me

Like love had never touched a damn thingDont know what to feel no more (to feel)  
Do we turn walk away  
From this thing we know  
We try to uphold the concern

Just say goodbye and hope that well learnWhat will you  
Do when the kingdom falls  
I dont know  
Im feeling that since its changed  
Right before our eyes  
What will we  
Do when the stars dont shine  
Il always be in never impala  
So love, love,What will you  
Do when the kingdom falls  
I dont know  
Im feeling that since its changed  
Right before our eyes  
What will we  
Do when the stars dont shine  
Il always be in never impala  
So love, love,We tried our best  
But couldnt seem to pull through (oooh)  
We gave our everything to get an understand  
Heart in a hand  
Never seem to find the things so show you  
Ill always be in never impalaBlood that is deep as can be  
It hurts yeah Im lost but Im feeling free  
You spread your wings for me

I hope and pray you find a better dayDont know what to feel no more (to feel)  
Cause weve turn walk away  
From this thing we know  
No need to uphold the concern

Weve said goodbye and hope that well learnWhat will you  
Do when the kingdom falls  
I dont know  
Im feeling that since its changed

Right before our eyes  
What will we  
Do when the stars dont shine  
Ill always be in never impalaWhat will you  
Do when the kingdom falls  
I dont know  
Im feeling that since its changed  
Right before our eyes  
What will we  
Do when the stars dont shine  
Ill always be in never impalaWe tried our best  
But couldnt seem to pull through (oooh)  
We gave our everything to get an understand  
Heart in a hand  
Never seem to find the things so show you  
Ill always be in never impalaLove, love, love, love  
Love, love, love, loveeee  
Love, love, love, love  
Love, love, love, loveeeeCause I dont know what to feel no more!  
Cause weve turned walked away
