Touch Me

Ginuwine

I lose my mind every time you touch me
I can't control myself when it comes to you
I lose my mind every time you touch me
I can't control myself
I love every single way that you look at me
There's somethin' special in the way that you talk, oh
When I see that sexy style, somethin' goes through me
I think the greatest thing is watchin' you walk
Wait a minute, let me go back and re-track what I said because
I lose my mind every time you touch me
I can't control myself when it comes to you
Touchin' me, touchin' me
Touchin' me, touchin' me
I love it when you rub my hair when armrest out the chair
Or I let you hold my hand in the club
To let the chicks know you don't share
Or in the middle of the night when we're naked
When you're lyin' next me
Even when I'm not in the mood just the slightest touch from you
Makes me go insane, that's why I say
I lose my mind every time you touch me
I can't control myself when it comes to you
Touchin' me, touchin' me
Touchin' me, touchin' me
When there is no sunlight, you brighten my life
With every touch of your hand
And it seems like when things don't go right
You make it alright if you just touch me again
I lose my mind
I lose my mind every time you touch me
I can't control myself when it comes to you
Touchin' me, touchin' me
Touchin' me, touchin' me
I lose my mind every time you touch me, yeah
I can't control myself when it comes to you
Touchin' me, touchin' me
Touchin' me, touchin' me
